

# BLOOD DONATION CAMP @ RSB, MANIA PLANT

Coverage by Subrat Behera

As a part of CSR initiative, Blood Donation Camp, in collaboration with Indian Red Cross Society, was organized by our RSB Mania Plant colleagues, where record number of 61 units were collected to take care of needy and under-privileged patients of rural areas around Mania in case of exigencies. The event was organized to coincide with International Woman's Day where inaugural donation was made by our lady colleague, Ms Sanghamitra Nayak.

RSB Mania has been known to provide free health care to rural folks through its RSB Health Centre with highly experienced doctors and para medical staff. RSBians of Mania have been always in the forefront for such voluntary initiative for the rural have-nots.

Red Cross Society commended the excellent work done by Mania colleagues and awarded an Appreciation Certification in recognition of their service.

Here are pictorial glimpses:
